

3-Develop a python code on central tendency and dispersion Measures.

9-Develop a python Code on Data Pre-Processing techniques

1-Develop a Python code on decision tree Algorithm

4-Develop a python k-nearest neighbours algorithm

8. Develop a python code on Decision tree Algorithm application on Regression Problem.

10-Develop a python code on Random forest Algorithm and its application.

7- Develop a python coda on Naive Bayes classification algorithm

10- Develop a python code on simple linear regression & its application

2- Develop a python code on linear regression algorithm & its application

6- Develop a python code on multilayer perception (MLP) & its application.
